At the event, MResult representatives will be showcasing the firm's Aggregate Spend Solution application. This customized compliance platform has been developed to help pharmaceutical and medical device companies meet the data collection and reporting challenges resulting from the Physician Payment Sunshine Provisions of the Patient Protection and Affordable Health Care Act (H.R. 3590) which was signed into law by President Obama on March 23, 2011. Companies will be required to begin recording data as soon as 2012.

MResult recently sponsored CBI's 5<sup>th</sup> Annual Tracking State Laws and Aggregate Spend conference in Washington, D.C. where the firm first introduced its Aggregate Spend Solution application. At the event, MResult surveyed the diverse crowd of attendees to measure the current state of industry readiness regarding the new regulations. The results of this survey are publicly available at MResult's website:

MResult's experience in the corporate legal and compliance and regulatory fields of large pharmaceutical and biotechnology firms, along with the company's strong background in business intelligence, data warehousing, and report delivery has placed them in an ideal position to deliver their Aggregate Spend Solution application.

### **About MResult Corporation**

MResult Corporation was incorporated in 2002 and is headquartered in Mystic, CT. The firm provides best practice solutions in software development, business analysis, quality assurance and offers a full range of business intelligence solutions, portal development services and customized applications. Clients include Fortune 500 companies and internationally renowned high-growth companies, as well as some of the largest pharmaceutical and biotechnology companies in the industry.

MResult is a technology provider with industry specialization in health care practitioner (HCP) and health care organization (HCO) regulations. MResult has been recognized two years in a row by Inc. Magazine as one of the fastest growing companies in the US and received the Marcum LLP Tech Top 40 Award from the Connecticut Technology Council in 2010.
