New London-based Business Intelligence and Technology Staffing firm MResult Corporation has been named to the Connecticut Technology Council's 2010 Marcum LLP Tech Top 40 list, a celebration of the 40 fastest growing technology firms in Connecticut.

The category includes all Software, IT, New Media, Advanced Manufacturing Energy/Telecom/Green Tech and Life Sciences companies based in Connecticut with operating revenues of at least \$50,000 in 2006 and \$3,000,000 in 2009 that own proprietary technology or proprietary intellectual property which significantly contributes to operating revenue.

MResult Corporation's revenue growth of 125 percent from 2005 to 2009 secured its location on the prestigious list. CEO Archana Naik credits MResult's success to consistent delivery of value and a strong focus on long-term client relationships. Naik said, "Almost all of our new business has been based on referrals from our current clients, which is a strong indicator of their satisfaction."

About MResult Corporation

MResult Corporation was incorporated in 2002 and is headquartered in New London, CT. The firm provides best practice solutions in software development, business analysis, quality assurance and offers a full range of business intelligence solutions, portal development services and customized applications. Clients include Fortune 500 companies and internationally renowned high-growth companies.

MResult's mission is to help organizations plan, build, and manage solutions designed around their missions, goals, and people rather than particular technologies with the understanding that every organization's needs, staffing capability, technical environment, and business goals, are different. For more information, please visit www.mresult.com.

About The Connecticut Technology Council, Inc.

The Connecticut Technology Council is a statewide association of technology oriented companies and institutions, providing leadership in areas of policy advocacy, community building and assistance for growing companies. Speaking for over 2,000 companies that employ some 200,000 residents, the Connecticut Technology Council seeks to provide a strong and urgent voice in support of the creation of a culture of innovation. This includes working to position Connecticut as a leader in idea creation, workforce preparation, entrepreneurial aptitude, early stage risk capital availability and providing on-going support and mentoring to high potential firms.
